

DFT CONSULTING, LLC

SDVOSB

Service-Disabled Veteran-Owned
Small Business (*Certification Pending*)

Supply chain, logistics, and critical-infrastructure advisory for federal customers — built on Marine Corps logistics discipline.

CORE COMPETENCIES

- Site selection & infrastructure feasibility for critical-infrastructure facilities
- Due diligence for powered-land and data center development
- Initial Outfitting, Transition, and Activation (IOTA) for federal facilities
- Supply chain analysis, design, and optimization
- Inventory management, accountability, and asset visibility
- Logistics planning and integrated move execution
- Materials management and distribution network design
- Property accountability, requirements analysis, and program support

DIFFERENTIATORS

- **Veteran-led, mission-focused.** Founder is a U.S. Marine Corps veteran with 3043 MOS (Supply Administration & Operations) experience — federal supply chain practices applied as standard operating procedure, not learned from a textbook.
- **Right-sized for set-aside work.** Lean overhead, principal-led delivery. Government customers get senior attention on every engagement, not a stack of pass-through markups.
- **Built for federal procurement from day one.** Registered in SAM.gov, SDVOSB certification in process, designed to meet FAR/DFARS compliance from inception.
- **Texas-formed, Louisiana-based.** Strategic location for Gulf Coast and Southeast federal facilities; ready for travel CONUS-wide.

RELEVANT EXPERIENCE

- **Site selection & due diligence — powered-land for data center development (2024 – present):** Provide ongoing site selection, infrastructure feasibility, and due-diligence advisory for powered-land acquisition supporting data center development serving hyperscaler and AI clients. Engagement began informally in 2024 and was formalized under DFT Consulting upon LLC formation. Scope spans utility/power capacity verification, site suitability analysis, and risk assessment for time-sensitive land acquisition decisions.
- **U.S. Marine Corps — Supply Administration & Operations (MOS 3043):** Direct hands-on experience in unit-level supply chain operations, inventory accountability, requisition processing, and logistics planning supporting Marine Air-Ground Task Force operations.
